SAMUEL FELIPE QUIROZ PIÑEROS

JR FRONT-END DEVELOPER

ABOUT ME

Front-End Developer with more than 1 year of experience creating modern, responsive, and high-performance interfaces with React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS. Experience delivering scalable solutions for global clients, integrating APIs and backend systems, optimizing SSR, technical SEO, accessibility, and performance in enterprise environments. Focus on clean code, collaboration with multidisciplinary teams, and developing solutions that deliver measurable value.

EXPERIENCE

Front-End-Developer

Enero 2026 — Abril 2026

Av3x

Colombia-Remoto

- Developed automations for different clients, creating interactive dashboards that allowed administrators to visualize, manage, and control information centrally.
- Implemented data migrations from Excel to dynamic databases, ensuring structured storage and operation based on imported information.
- Built front-end solutions with Next.js, React, Tailwind, Firebase, and MongoDB, prioritizing performance, scalability, and user experience.
- Managed workflow through GitHub and agile methodologies such as Scrum and Kanban, facilitating organization and continuous task delivery.
- Participated in code reviews and performed automated testing to improve code quality, detect errors early, and strengthen application stability.

Front-End-Developer

Julio 2025 — Diciembre 2025

Freelance

Colombia-Remoto

- Developed web applications for e-commerce, collaborating with backend and testing teams to ensure a functional and stable implementation.
- Designed and structured the full interface of the applications, prioritizing a clear, scalable, and conversion-oriented user experience.
- Implemented front-end solutions with Next.js, Tailwind CSS, and TypeScript, optimizing maintainability and code quality.
- Integrated Firebase services, including authentication, storage, and database, to support key platform functionality.
- Coordinated functionality validation with the testing team, reducing errors and improving the consistency of the final product.

Front-end Developer

Enero 2025 — Julio 2025

FREELANCE

Argentina -Remoto

- Developed a responsive e-commerce website using HTML, JavaScript, and React, applying Bootstrap to optimize the interface and user experience.
- Implemented reusable components and front-end functionality aimed at improving navigation, usability, and visual consistency.
- Collaborated with multidisciplinary backend and testing teams to integrate functionality, validate requirements, and ensure product quality.
- Participated in building a scalable solution, aligning development with responsive design best practices and teamwork.

EDUCATION

Front-End Developer

CODER HOUSE

Enero 2024 — Julio 2025
